

Wooden Sign Event

At St. Jerome's Family Fun Night
Friday, February 3rd

Create a wood sign with a word or phrase, bible passage, or family name.

There are a number of different ways to make signs. For this project we will be cutting the lettering with the Cricut electronic cutting machine. The Workshop will precut the lettering; you can paint and assemble the sign at the Family Fun Night. Fill out the information below to assure your desired materials will be available and prepared for you. Contact Becky at The Workshop with any questions, 920-319-6956 or workshopcolumbus@gmail.com

Please complete the form below and return to the St. Jerome office by Monday, January 30th.

- Size of your wood board or door (Circle one; pay the day of the event.)

\$5.00 options

7.25x12" wood board

11.25x12" wood board

10.5 x15.5" cabinet door

\$10.00 options

11.25x18" wood board

11.25x24" wood board

12x20" cabinet door

12x28" cabinet door

Cabinet door is really an old cabinet door. Makes a great sign if you want a more finished look. Measurement includes 1.75" frame.

- Text and placement (Please clearly print the text you want on your sign.)

Use the box to show the layout of the text. Use the lines for more room if you have a longer phrase or passage. Make a notation for upper case or lower case letters, color, and type of font (you can circle or note if you like one of the fonts from the above samples).
